

## OUTRIDE ANNOUNCES SUMMER / FALL 2020 OUTRIDE FUND GRANT RECIPIENTS— Matching Grants Awarded in the Areas of Youth Cycling, Trail Projects, and Youth Rider Development.

The mission of the Outride Fund is to empower local communities to launch a variety of youth cycling initiatives nationwide through providing matching grants to grassroots organizations in support of Trail Building, Youth Cycling Education, and Youth Rider Development. We are pleased to announce our continued commitment to youth cycling by awarding \$253,000 in matching grants to 33 organizations in 17 states, our largest grant cycle to date.

In the inaugural year of the Outride Fund, Outride has committed a total of 76 matching grants totaling \$513,000, to organizations in 30 states across the nation. As always, the matching grant nature of the Outride Fund means double the impact, resulting in over \$1 million dollars invested in local grassroots organizations and cycling programs around the US.

Andy Cunningham, Ph.D., Outride Program Manager shared, “Best of all, we are just getting started. The Outride Fund, along with Riding for Focus, will continue to be a powerful source of access and equity, providing bold new cycling opportunities for the children and communities that need access to bikes the most.”

Congratulations to all the Outride Fund Awardees.
