

OUTRIDE ANNOUNCES FALL 2019 AND SPRING 2020 OUTRIDE FUND GRANT RECIPIENTS— Matching Grants Awarded in the Areas of Youth Cycling, Trail Projects, and Youth Rider Development.

Outride is a public nonprofit dedicated to improving the lives of youth through cycling. Through our Primary Research, Riding for Focus cycling program, and Outride Fund grant giving activities, we provide evidence-based cycling interventions to improve social, emotional, and cognitive health.

The mission of the Outride Fund is to empower local communities to launch a variety of youth cycling initiatives nationwide through providing matching grants to grassroots organizations in support of Trail Building, Youth Cycling Education, and Youth Rider Development. We are pleased to announce our commitment to youth cycling by funding grant awards surpassing \$250,000 to organizations in 22 unique states.

This past Fall, Outride issued 19 grants to organizations in 13 states, committing \$111,000 in matching funds if funding goals are met. This Spring, we awarded an additional 24 matching grants, committing over \$149,000 to community partners in 14 states.

In addition to the Outride Fund-sponsored grants issued to date, we will support over 30 new Riding for Focus school grants as well as two additional funding rounds of Outride Fund matching grants, for a combined total of more than \$1.4 million awarded in 2020.

Congratulations to all the Outride Fund Awardees. We will be announcing the winners of our 2020 Riding for Focus program recipients in the coming weeks.
